## Expert – Risk Manager (female/male)

### Field of activity

The section Group Risk Management is coordinating the risk management activities of Deutsche Börse Group. Principal task of the section is the monitoring of operational, financial and business risk within Deutsche Börse AG and its subsidiaries to ensure that all developments that could jeopardize the interests of the organisation can be identified at an early stage and suitable countermeasures deployed. In your role you are mainly responsible for the management of potential operational risks.

### Tasks/responsibilities

- Monitoring of operational risks to which Deutsche Börse Group is exposed
- Maintenance and improvement of the existing qualitative and quantitative risk measurement framework, especially the Basel II Advanced Measurement Approach (AMA) of Clearstream International
- Assessment of potential risk arising from new business, new products, changes in internal procedures or external dependencies
- Periodic and ad hoc reporting of the operational risk situation
- Contribution to improve risk awareness as part of corporate culture
- Day-to-day activities to support the general objectives of the section including administrative tasks

### Qualifications/required skills:

- University degree or similar
- Strong experience in banking/securities processing environment
- Risk Management experience and sound knowledge of statistical concepts would be an advantage
- Strong analytical skills, creativity, as well as the ability to work independently and under pressure
- Good presentation and communication skills and ability to work in a team
- Proficiency in written and spoken English; Fluency in German and French is an advantage

Location: Luxembourg
